JDT owns the conversation, but creators are already telling three stories JDT and its rivals barely touch

53.0%

of organic engagement across 8 tracked clubs & stadiums goes to JDT (last 90 days)

20%

of creator content is about young players & local talent, vs 8% of JDT's and 0% of competitors'

18%

of creator content is Johor culture & tradition; JDT and competitors: 0%

Recommendation: three pillars (Next-gen Tigers, Johor pride, Matchday made easy), with a 13-week plan from 16 Nov 2026. Read from TOUCHIGH content data; club pages are covered from Jul 2026.

COMPETITORS · CREATIVE READ

JDT gets more engagement per post than any rival, yet ties with Buriram for the least varied feed

Entity	Variety index (0–100, higher = more varied)	Distinct tags	Video %	Posts 90d	Share of posts	Share of engagement	Eng / post
Lion City Sailors	82	39	11%	963	14.6%	2.9%	321
The Kallang	81	62	75%	828	12.5%	3.9%	504
Selangor FC	80	64	25%	629	9.5%	13.0%	2,227
Sabah FC	78	56	43%	854	12.9%	4.5%	570
Kuching City FC	76	46	39%	473	7.2%	5.1%	1,168
Stadium Malaysia (Bukit Jalil)	76	50	82%	383	5.8%	2.2%	607
JDT	**75**	**63**	**39%**	**1667**	**25.3%**	**53.0%**	**3,412**
Buriram United	75	54	36%	804	12.2%	15.4%	2,051

How to read: the variety index is the normalised spread of content types, topics, tones, image styles and emotions across each entity's latest 28 organic posts (TOUCHIGH tags). It is a fast proxy for Meta Diversity, not the full scorer.
What drives it: JDT's feed leans on one register (team news and match content). Lion City Sailors and The Kallang mix more formats and topics, and the stadiums are mostly video.

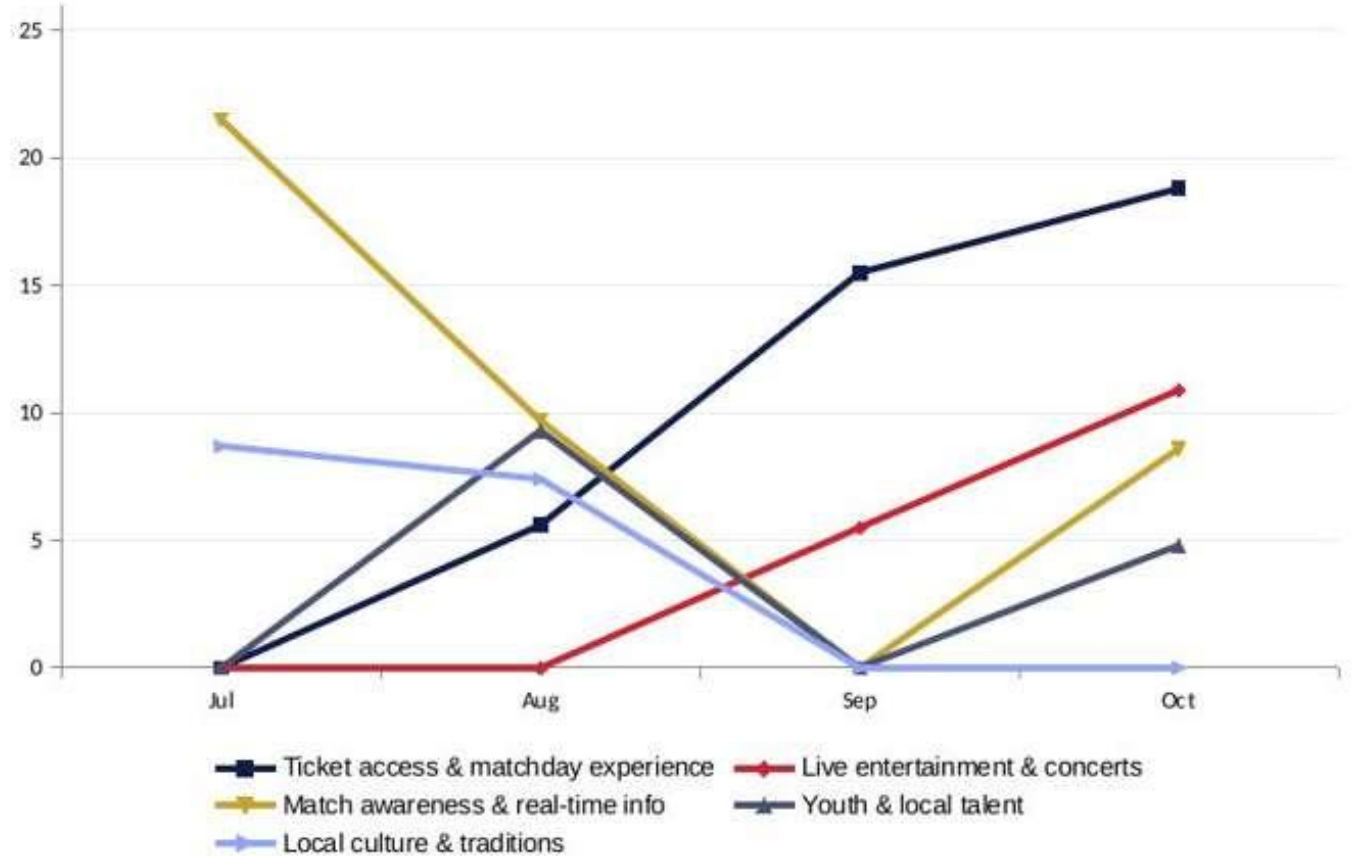

WHITESPACE · THREE COHORTS, LAST 90 DAYS

Two territories are open: young talent (JDT partly there) and Johor culture (nobody there)

Territory	Creators (n=483)	JDT (n=1,667)	Competitors (n=5,000)	Verdict
Community spirit & fan belonging	24.2% HIGH	53.6% HIGH	54.5% HIGH	CONTESTED

Team spirit & motivation	0.0% LOW	4.3% LOW	7.8% MED	NO CREATOR SIGNAL
Live entertainment & concerts	0.0% LOW	0.0% LOW	0.0% LOW	LOW EVERYWHERE

Share = sample size of the study themes in that territory ÷ the cohort's total posts. HIGH > 20%, MED 5–20%, LOW < 5%. Creators are a content proxy (content made for football fans), not the audience itself. The cohorts differ ~10× in size, so compare shares within each column, not raw posts.

Month to month, the category moves into ticket access and live events, while youth and culture stay small

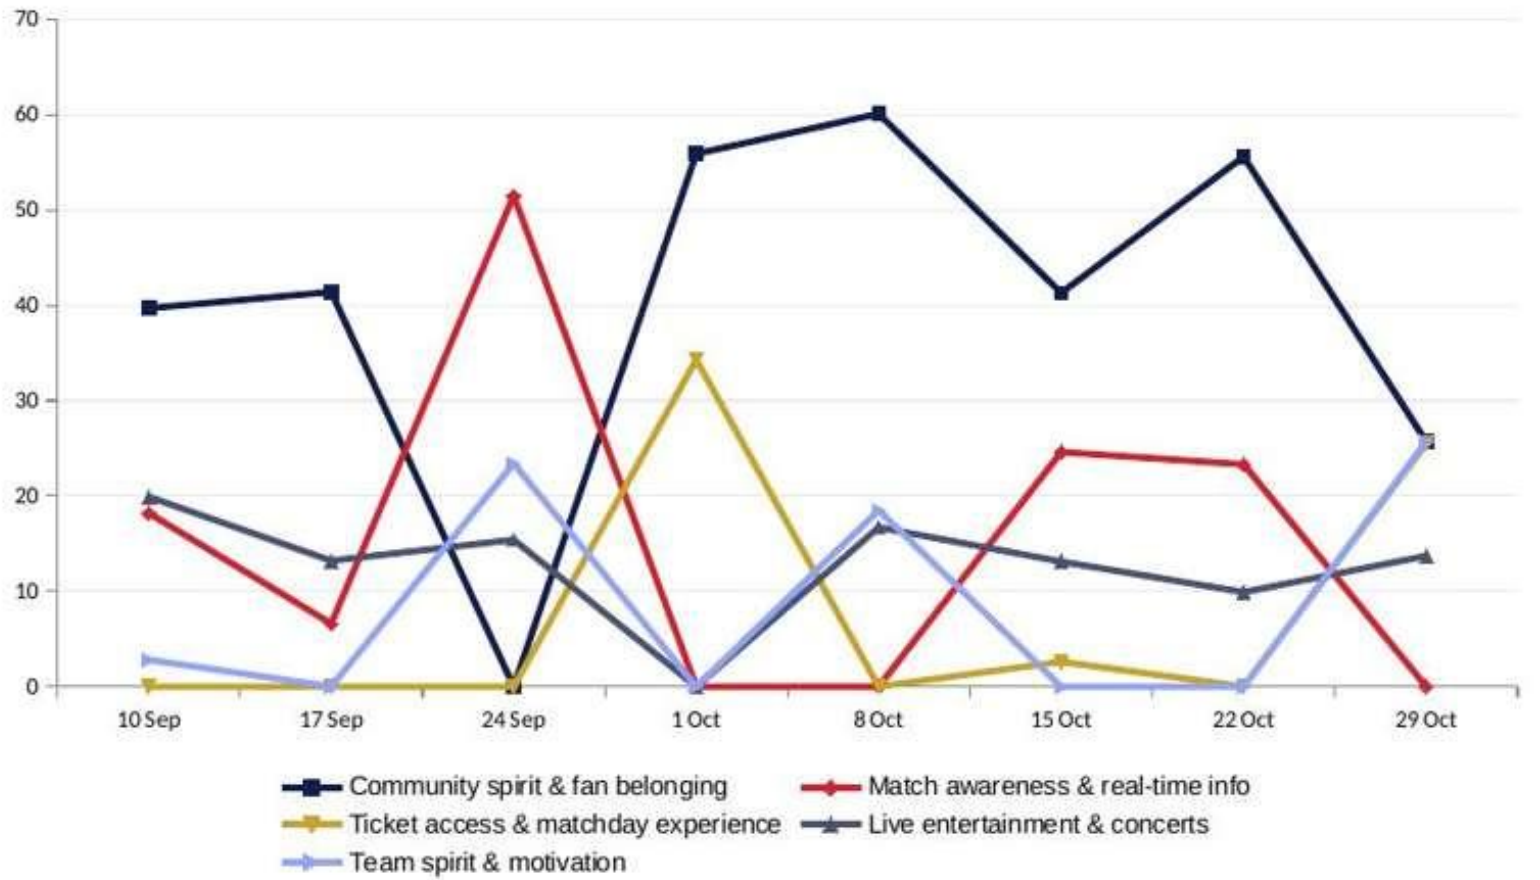

JDT + competitors, share of monthly study (%). Jul–Oct 2026 only: the like-for-like window where every club is covered.

Territory	Brand+comp trend	Creator trend	Open?	Gate
Youth & local talent	VOLATILE*	ABSENT*	PARTIAL	PASS

Ticket access & matchday experience	RISING*	ABSENT*	NO CREATOR	—
Live entertainment & concerts	RISING*	ABSENT*	LOW	—
Community spirit & fan belonging	VOLATILE*	VOLATILE*	CONTESTED	—

* UNVERIFIED: one cycle of 4 months, with no prior-year data in TOUCHIGH, so no direction can be confirmed as a trend rather than a seasonal slope. The gate passes territories that are open in the 90-day read; trend status is supporting evidence only.

Week by week, ticket access spikes in match weeks while live entertainment holds steady at 10–20%

What the weekly cut adds

Ticket access & matchday: 0% most weeks, then 34% in the week of 1 Oct. It is event-driven, so plan ticket posts around fixtures, not on a fixed cadence.

Match awareness & info: peaks at 52% (24 Sep). Info gaps open up around match weeks.

Live entertainment: present in 7 of 8 weeks; stadium and concert content is a constant competitor for attention.

8 weekly TOUCHIGH studies (ids 11894–11901), 299–642 posts each. A monthly view hides these spikes.

WHERE TO INVEST FIRST

Three pillars, ranked by how open the ground is and how much JDT already has to build on

#1 · PARTIAL

Next-gen Tigers

Creators 20% · JDT 8% · Competitors 0%

Creators publish heavily about young players and local talent; JDT touches it; competitors barely do.

Territory: Youth & local talent

#2 · OPEN (creators MED)

Johor pride: culture & traditions

Creators 18% · JDT 0% · Competitors 0%

Creators publish on Johor culture; neither JDT nor competitors do in the last 90 days.

Territory: Local culture & traditions

#3 · PARTIAL

Matchday made easy

Creators 24% · JDT 17% · Competitors 0%

Creators and JDT both publish match information; competitors rarely do, but competitor ticket-access content is rising.

Territory: Match awareness & real-time info

THE INSIGHT CHAIN

Each persona maps to one tension, one angle and three stories, one per funnel stage

PERSONA	TENSION	ANGLE	STORIES (AWARENESS → CONSIDERATION → CONVERSION)
The Purpose-Driven Sports Enthusiast (JDT cohort, n=454)	Young Johor players lack visibility and a clear route up	Show the pathway, from JDT V to the first team, as a story fans can follow	• Every first-team Tiger once trained on a Johor school pitch • Five steps on the Tiger pathway • Watch JDT II and see the next Tigers first
The Adventurous Culture Connoisseur (creator cohort, n=89)	Local culture and shared family traditions feel disconnected from modern matchdays	Make the matchday a Johor family tradition, across generations, food and song	• Three generations, one stand, one Johor song • Matchday tastes of Johor around Sultan Ibrahim Stadium • Bring the family in Johor colours this festive matchday
The Energetic Community Builder (creator cohort, n=376)	Fans miss lineups, kick-off changes and ticket windows	One clear, timely matchday service post before every game	• Lineup, kick-off, gates: never miss a Tiger moment • Your matchday in one screen • Get your ticket before the gates sell out

JDT has the right to lead all three, and each extends something it already publishes

WHY JDT CREDIBLY BELONGS

• Scale: 1,667 organic posts in 90 days and 53.0% of the tracked set's engagement.
• Pathway: JDT II, III, IV and V and futsal teams are listed on the club site, so the youth story is real, not invented.
• Home: Sultan Ibrahim Stadium and the Johor identity ("Southern Tigers") make culture a native subject.
• Service: the club runs its own store and ticket links (tickethotline.com.my), so matchday info has a real destination.

HOW IT EXTENDS WHAT JDT ALREADY DOES

• Youth: 8% of JDT's 90-day content already covers young players. Make it a recurring series, not one-offs.
• Match info: 17% of JDT's content is match information. Turn it into one fixed, recognisable pre-match format.
• Culture: new for JDT. Run it at festive moments (Christmas, New Year, Chinese New Year) and on family matchdays first, then judge from engagement.

RECOMMENDATIONS

Three moves, ranked by what the data supports

1 · Make Next-gen Tigers a series

Creators 20%, JDT 8%, competitors 0%. Partial ground JDT can deepen fast with its JDT II–V pathway.

2 · Own the pre-match moment

Fix one matchday-info format. Competitor ticket-access content rose to 19% of monthly content by Oct and spikes in match weeks.

3 · Test Johor pride at festive matchdays

Creators 18%, every brand 0%. Open but unproven; run 9 posts, then read engagement before scaling.

The one number to re-check: rerun the youth whitespace read in Feb 2027, when TOUCHIGH will hold 8 months of club data and the first prior-period comparison becomes possible.

APPENDIX

The evidence

Method and data coverage · monthly trend history · brand rules · creative library (108) · audit trail

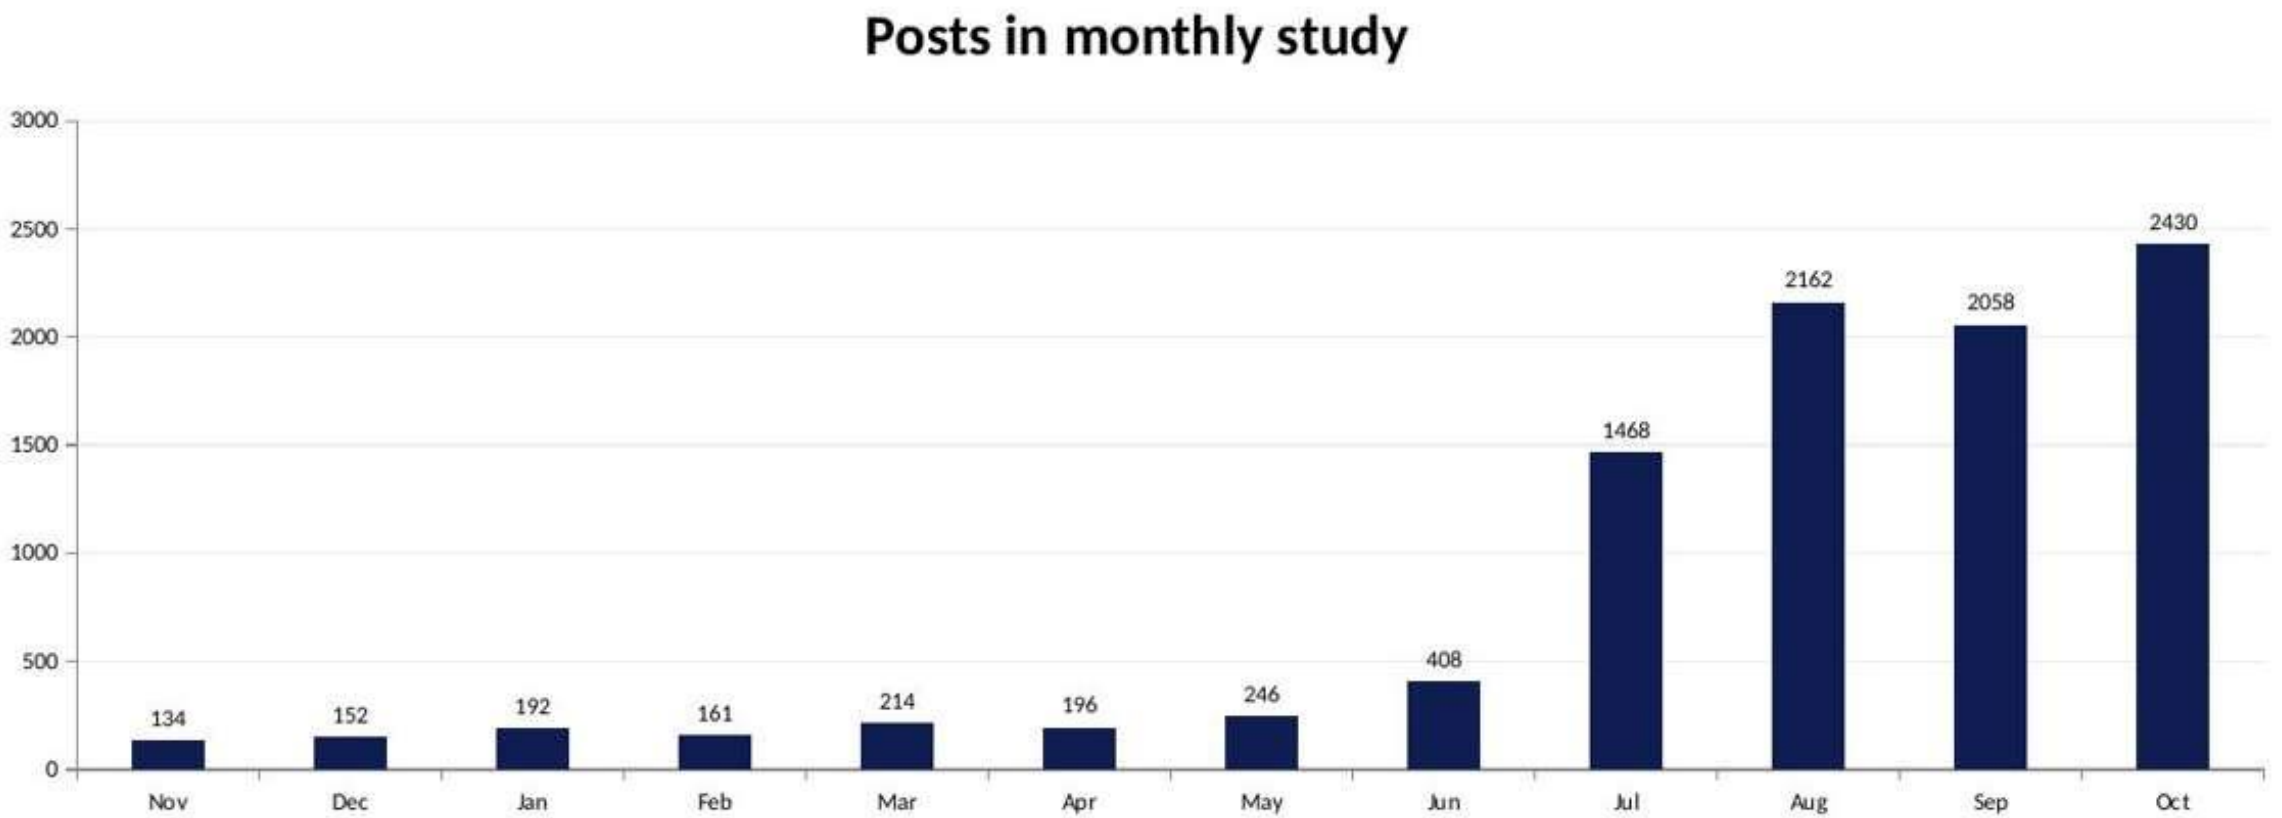

APPENDIX · METHOD NOTES

How this read was made, and what the data can and cannot say

• Source: TOUCHIGH workspace 5191 (Johor Darul Ta'zim FC). JDT (profile 24483); competitors Selangor FC, Kuching City FC, Sabah FC, Lion City Sailors, Buriram United, Persib Bandung (0 posts, excluded), Stadium Malaysia (Bukit Jalil), The Kallang.
• Creator panel (content made for football fans, not the audience): safawirasid29, johor_futbol, farishaziz, ammaranuwar (peiyu0515 had 0 posts). 616 posts, all from Jul 2026.
• Coverage: club pages are collected from Jul 2026 (Lion City Sailors from Apr). Only the two stadiums cover Nov 2025–Jun 2026, so monthly trends use Jul–Oct 2026 only. No prior-year data, so every trend direction is UNVERIFIED.
• Studies: 12 monthly, 5 creator monthly + 1 live 30-day, 3 whitespace cohorts (90 days) and 8 weekly. The competitor cohort study hit the 5,000-post cap.
• Alignment: study themes are mapped to 11 territories by rules on theme titles (file alignment rules in the audit trail); shares = theme sample ÷ study total.
• Paid: only The Kallang runs tracked ads (402 Meta ads). JDT has no paid data, so no paid read or clickability scoring is shown.
• Brand rules: measured from JDT's 600 most recent organic images (Aug–Nov 2026): palette pixel-sampled (navy 22% of pixels, red 3% accent, gold <1%); on-image words by OCR of 170 designed images, median 15, band 7–29. One token set drives the deck, the dashboard and the creatives.
• Not in this version: insight stories, products, propositions and moments were not created in TOUCHIGH; predicted-performance scoring and per-post briefs are next. The full 108-creative library (36 per pillar) is in this appendix; creatives use a 2:3 frame and need a 4:5 crop for the feed.

APPENDIX · MONTHLY HISTORY

Before July only the stadiums were tracked, so early months are not comparable with later ones

Posts per monthly TOUCHIGH study (JDT + competitors). The step in July is when club pages start being collected, not a change in what fans or clubs did.

APPENDIX · BRAND RULES

Creatives follow JDT's own feed: navy and red, condensed caps, 7–29 words on image

#101D52
Navy · primary field

#D6202E
Red · accent / CTA

#C9A227
Gold · records only

#FFFFFF
White · type

#4A5275
Grey · secondary

- Palette: pixel-sampled from JDT's 600 latest organic images (8 Aug – 6 Nov 2026). Navy/blue is 22% of all pixels, the darkest navy (#0C0C3C) is the most common colour, red is a 3% accent and gold is under 1% (trophies only). Deck, dashboard and creatives all use this one token set.
- On-image copy: OCR (Tesseract, confidence ≥ 70, crest words excluded) of 170 designed images out of 600: median 15 words, interquartile band 7–29.
- Format: 4:5 is the most common image ratio (200 of 600), then 9:16 (123); 29% of posts are video. The renders here are 2:3 and need a 4:5 crop for the feed.
- Crest: never drawn by the model. The top-left corner is left empty for the real JDT crest.
- No paid CTAs exist for JDT; the conversion renders use "Get tickets" as a placeholder to replace with the club's real wording.
